

You and your research partner want to answer the question

**“Does sun exposure affect the risk of skin cancer?”**

Together with your partner, write several paragraphs describing how you would conduct an observational study or experiment to answer the question. Make sure to justify the decisions you have made.

You and your research partner want to answer the question

**“Is Ibuprofen or Tylenol more effective for pain relief?”**

Together with your partner, write several paragraphs describing how you would conduct an observational study or experiment to answer the question. Make sure to justify the decisions you have made.
